Environment protection and transformation need effective program that includes end to end hand holding from Awareness, Engagement, Execution and Sustenance of all stake holders.

Green Kaizen Network is a single largest program for environment protection and transformation that provides..

Awareness

Online program for understanding environmental concerns and issues faced.

Engagement

Identifying how one can contribute to correction in daily activities & improvement of those activities

Execution

Initiating Green Kaizen that will modify our daily actions with small but continuous improvements for achievable and measurable outcomes

Sustenance

Sustaining corrections and improvements done before initiating new improvement action to improve achieved outcomes further.

GREEN KAIZEN NETWORK

Includes..

- On line course on environment awareness
- Knowledge assessment
- Access to Kaizen Portal for monitoring improvements
